Object oriented programming

- Treats data as critical element
- Program development does not allow it flow freely around the system
- It ties data with functions operating on the data and protects it from accidental modification from outside functions
- Decomposition of problems into small entities called objects
- Data of objects can be accessed only by the functions associated with the data.
- Functions of one object can access functions of other objects

OOP Fundamentals

- Class
- Objects
- Abstraction
- Encapsulation
- Inheritance
- Polymorphism
- containment
- Dynamic binding
- Message passing

Need of Object Oriented Programming

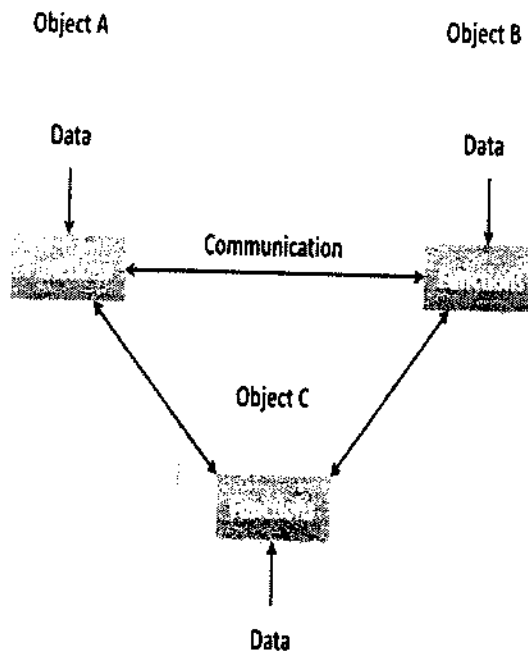

Break down requirements into objects with responsibility, not into functional steps

Easier to model real world problems

To make software projects more manageable and reliable

Code reusability

Data protection

Amrutvahini College of Engineering, Sangamner
Department of Electronics Engineering
Object Oriented Programming using C++

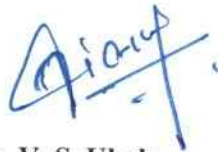

Objectives:

1. Make the students familiar with basic concepts and techniques of object oriented programming in C++
2. Develop an ability to write programs in C++ for problem solving.

Outcomes:

After completion of this course, student will be able to

1. Describe the principles of object oriented programming.
2. Apply the concepts of data encapsulation, inheritance in C++.
3. Understand operator overloading and friend functions in C++.
4. Apply the concepts of classes, methods inheritance and polymorphism to write programs in C++.

Letter of Appreciation

Dear, Er.Ubale V S.

We are writing this letter to express our gratefulness towards you for taking pains and clearing our students doubts on "Workshop on C++" on date 15/03/2021 to 20/03/2021 in association with IEEE Circuits and System Society(CASS) Students Branch chapter. We truly appreciate the way you taught our students and made them ready for the future exams. You have done a great favor to our students and we have no words to express our gratitude towards you.

We assure you that your efforts will not go waste and our students will pass out with excellent marks and make you feel proud of them. Once again, thanks for all the help extended to us.

With warm regards
