Octave Software for Signals and Control System

Objectives:

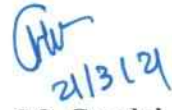

1. To know about Basics of Octave.
2. To introduce students to the Octave software for numerical computations for Signals and Control System
3. To solve linear and nonlinear problems numerically, and for performing other numerical experiments using a language that is mostly compatible with MATLAB.

Outcomes:

After completion of this course, student will be able to,

1. Write a simple program in Octave and simulate it.
2. Write program into command window and check outputs.
3. Solve linear and nonlinear problems using Octave software.
4. Perform frequency domain analysis of control systems required for stability analysis

C Programming

Objectives:

1. To train the student the advanced concepts of the C-programming language.
2. To provide exposure to problem-solving through C-programming.
3. To provide exposure to algorithms and algorithmic thinking.
4. To give the student hands-on experience of using modern software tools (IDE's, Compilers).
5. To enhance problem solving skills through data structures.

Outcomes:

Upon completion of this course, students will be able to-

1. Demonstrate an ability to use modern software tools (IDE's, Compilers) to write/edit, compile and test C programs.
2. Develop an ability to analyse a problem and demonstrate an understanding of algorithms in the problem-solving process.
3. Apply techniques of structured/modular programming to decompose problem and a program solution into smaller pieces (functions).
4. Identify code bugs and solve complex problems using data structures and algorithms.
5. Demonstrate the use of pointers in C programming for the implementation of stack, queue and linked list data structures.
6. Apply recursion to solve complex problems.

Letter of Appreciation

Dear,Dr.Gundal S.S.

We are writing this letter to express our gratefulness towards you for taking pains and clearing our students doubts on "Workshop on octave software for signal & control system" on date 24/04/2021 to 29/04/2021 in association with IEEE Circuits and System Society(CASS) Students Branch chapter. We truly appreciate the way you taught our students and made them ready for the future exams. You have done a great favor to our students and we have no words to express our gratitude towards you.

We assure you that your efforts will not go waste and our students will pass out with excellent marks and make you feel proud of them. Once again, thanks for all the help extended to us.

With warm regards
