Objectives:

1. To train the student the basic concepts of the C-programming language.
2. To provide exposure to problem-solving through C-programming.
3. To provide exposure to algorithms and algorithmic thinking.
4. To train the student to code, test, and implement a well-structured C program.
5. To give the student hands-on experience of using modern software tools (IDE's, Compilers).

Outcomes:

Upon completion of this course, students will be able to-

Letter of Appreciation

Dear, Dr. Rahane Sandip B.

We are writing this letter to express our gratefulness towards you for taking pains and clearing our students doubts on "C programming language" on date 18th September to 7th November 2020 in association with IEEE Circuits and System Society (CASS) Students Branch chapter. We truly appreciate the way you taught our students and made them ready for the future exams. You have done a great favor to our students and we have no words to express our gratitude towards you.

We assure you that your efforts will not go waste and our students will pass out with excellent marks and make you feel proud of them. Once again, thanks for all the help extended to us.
