Sir,

Just a note to congratulate you on the outstanding lecture you delivered today on "**Importance of Modern Tools in Civil Engineering**" to SE, TE and BE Civil Engineering Students.

I felt you addressed the subject with openness, honesty and sensitivity. I believe many of students now understand the seriousness of the topic and how to deal with it much better than before. I especially appreciate the examples you gave and the point of law that you applied to each. I wish you success in your effort to educate all of our students in work place.

There is no doubt that you will be called upon to present again. I wish you the very best of luck. We are all looking forward to another chance to hear you.

Introduction to ERP

- ERP stands for **Enterprise Resource Planning**.
But what does ERP mean actually?
- ✓ The simplest way to define ERP is to think about all the core processes needed to run a company
- ✓ e.g. finance, manufacturing, HR, supply chain, services, procurement, and others.
- ✓ At its most basic level, ERP integrates these processes into a single system.
