Department of Computer Engineering

Virtual Lab Workshop on Computer Graphics Experiments for SE computer

Nodal Center- Amrutvahini College of Engineering Sangamner

Region- Pune

NCID- 224

Date: 03/12/2021

Time: 2.00 pm To 3.00 pm

Venue: Teams app SE B computer graphics channel

Resource Person: Prof. G. D. Puri

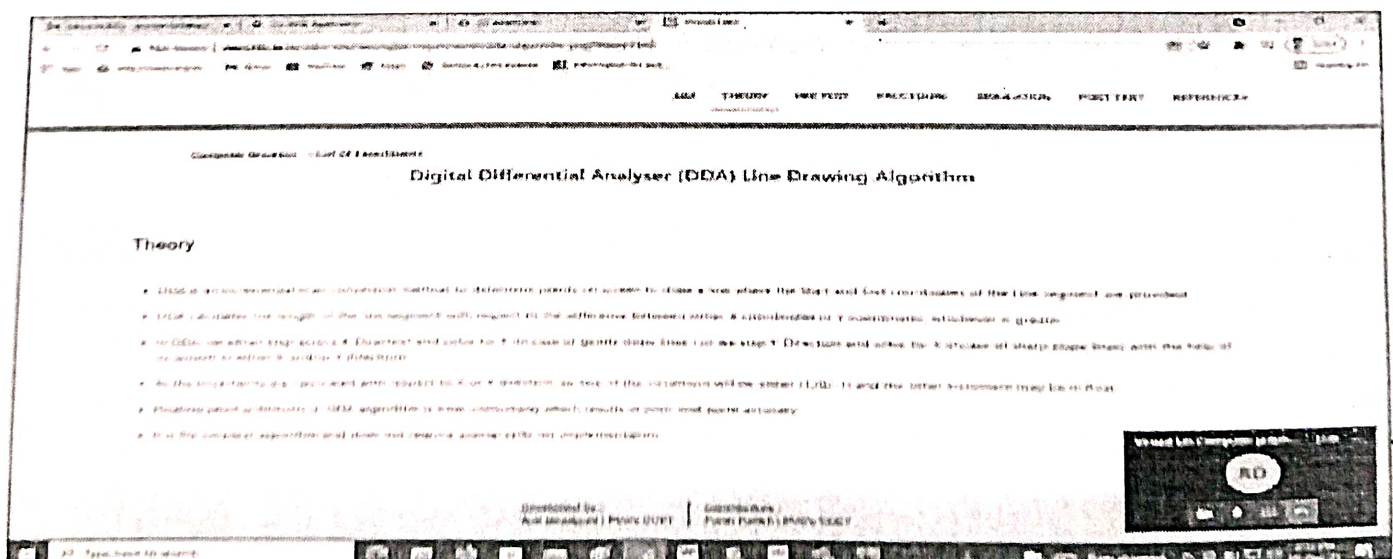

Organized By: Prof. G. D. Puri

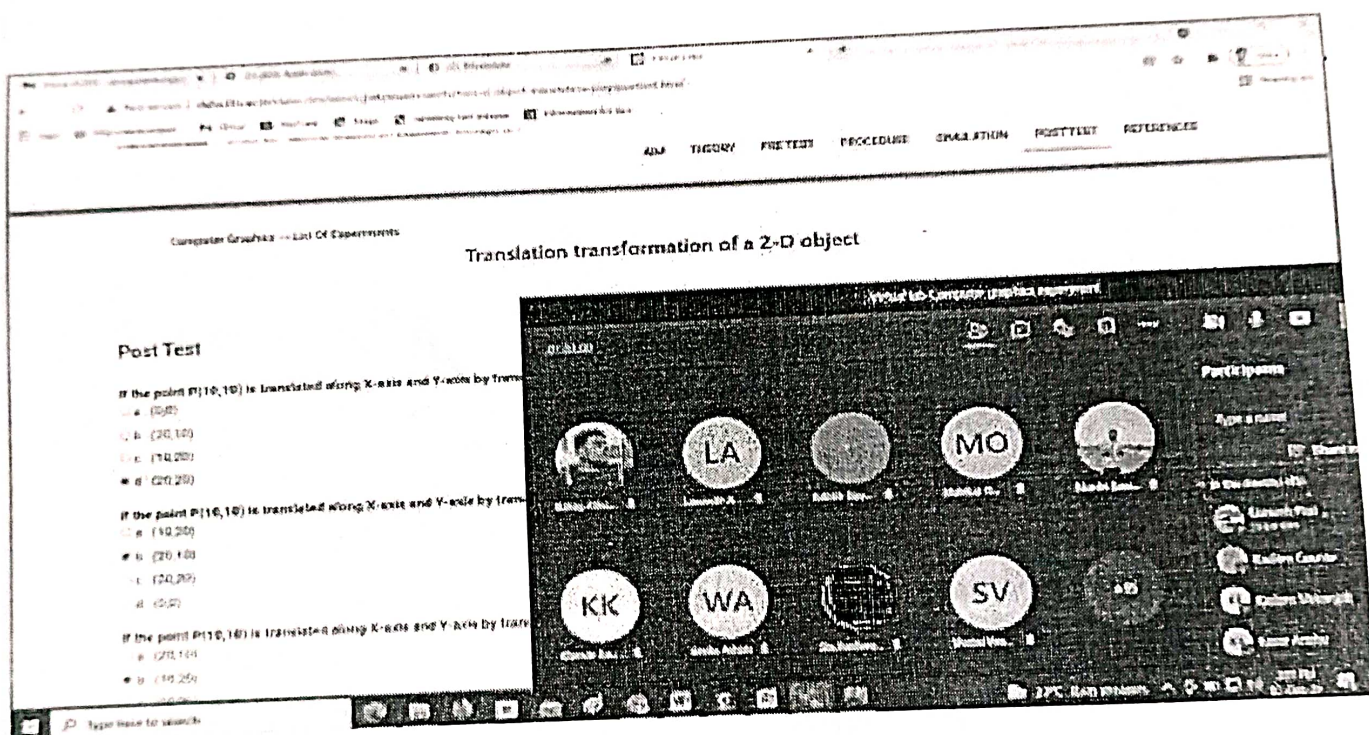

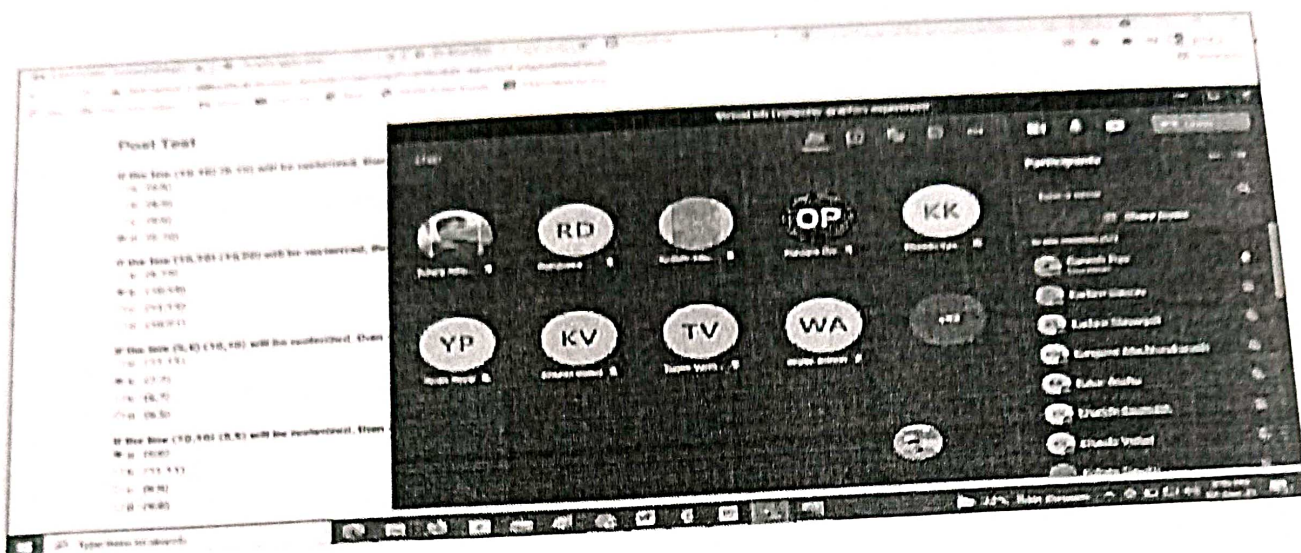

Target Audience: Second Year B div Computer Engg. Students.

Objective: Computer Graphics Virtual Labs are intended to augment the learning of science and engineering subjects through performing experiments. The experiments are designed either as simulations or as remote triggered. A remote triggered lab allows a user to connect to real equipment using a web browser.

This Workshop was very fruitful to our student, to understand the importance of Computer Graphics Experiments in Software industry. Following Experiment covered in the Vlab workshop. Total 55 students attended vlab workshop.

1. Digital Differential Analyser (DDA) Line Drawing Algorithm
2. Bresenham Line Drawing Algorithm
3. Translation transformation of a 2-D object
4. Scaling transformation of a 2-D object
