

Amrutvahini College of Engineering, Sangamner

Department of Computer Engineering

In association with

Indian Society for Technical Education

An interactive session on

“How to prepare for Hackathon”

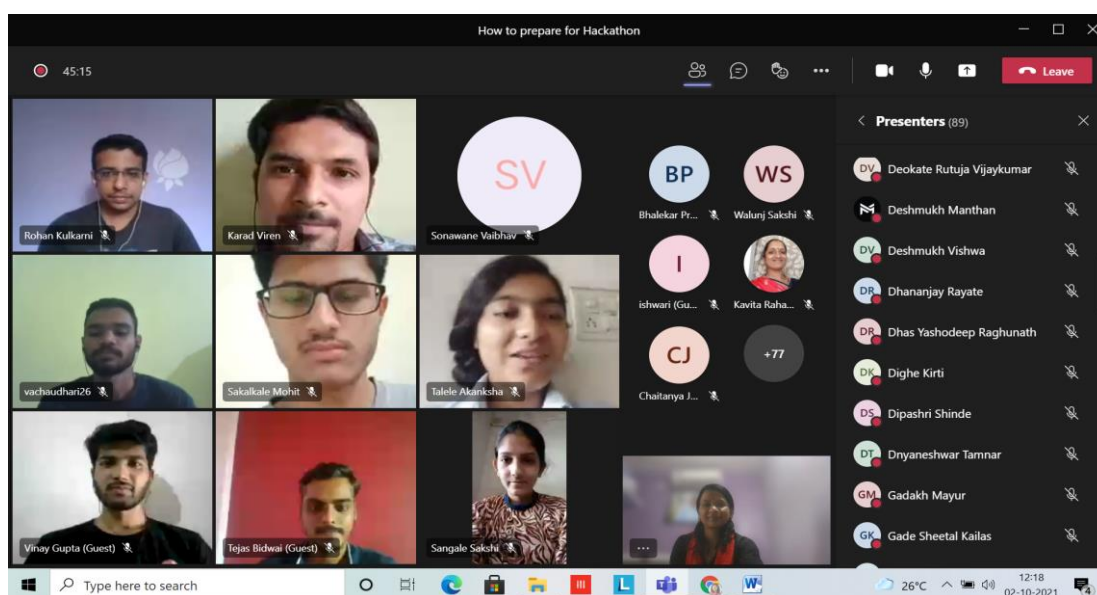

Date: 02.10.2021

Online platform – MSTEam

Department of Computer Engineering organized an interactive session with winners of SIH 2020 lead by Rohan Kulkarni along with Vijay Chaudhary, Tejas Bidwai, Vinay Gupta, Purva Chandge and Ishwari Kadav on **“How to prepare for Hackathon”** under ISTE student chapter, 2nd October 2021. Total 96(SE & TE) students participated in this session, which was organized virtually on Microsoft teams.

Following were the objectives of session:

1. Students will be able to showcase the skills & share innovative ideas. (PO3,PO6)
2. Students will learn about new technologies.(PO5)
3. They will learn to come together and learn from each other's successes and failures.(PO12)
4. Students will learn how to work in a team & will enhance skills like communication skills.(PO9,PO10)

To encourage students to participate in Smart India Hackathon they can ask any queries, following topics were discussed during this session:

1. How to apply for SIH?
2. Team formation.
3. Various problem statements, along with its proper selection.
4. Topics to be added in presentation.
5. Evaluation process.
6. Placement opportunities.
7. Discussion on projects assigned at Asean India Hackathon.
8. Toy hackathon – scope and so on.

We also shared photographs of internal hackathon, physically attended hackathons, virtual hackathon and Asian India hackathon to create more interest & zeal amongst the students.

Students were really happy at the end of session as they got quick response and proper guidance from our own ambassadors, winning team.
