College Introduction

Amrutvahini College of Engineering is one of the premium institutes established in 1983. The institute is approved by All India Council for Technical Education (AICTE) and permanently affiliated to Savitribai Phule Pune University with more than 3300 students offering engineering courses in Computer, Electrical, Electronics, Electronics & Telecommunications, Information Technology, Civil, Mechanical & Production.

Credentials

4 times **NBA Accredited**, **NAAC 'A+' Grade**, **ISO 9001:2015 Certified** by TUV-SUD, Accredited by Tata Consultancy Services for Placement of Engineering Graduates and this yearplacement count is 667 students for 2023 Batch which is the highest number in Pune University colleges.

Purpose of Visit

Engineering Students are expected to visit prominent industries and companies for the practical exposure and insights to the real working environments.

Request you to kindly accord Permission to visit your esteemed organization, your positive response in this regard highly solicited, waiting with anticipation.

(Tentative dates: 09/05/2023-11/05/2023)

We request you to grant the permission for **60 odd students along with accompanied 4 faculty**.

Thanks & Regards,

Sub:Permission for Industrial Visit for College TE CIVIL(Div.-A/B)Students to NRSC,
Hyderabad on 10/05/2023

Sir,

As a part of curriculum, our TE CIVIL (Div:- A/B)Engineering Students wish to visit industry to observe and to study manufacturing processes and mechanisms, which are entitled in their syllabus. It is very essential to have actual observation to understand the manufacturing process and mechanisms.

As per above mentioned subject, I have finalize the industrial visit and attach the necessary details of Industrial visit.

Total Number of Students = 60

It will be very kind of you, if you permit students along with staff members for one day visit.

Kindly permit us according to convenience.

Looking forward for your kind co-operation, help and support.

Thanking You,

Yours Faithfully,

Prof.

INDUSTRY VISIT REPORT

Name of Student: Lokhande Rohit Arjun Class: T.E (B) Branch: Civil

Name of Industry Visited: NRSC, ISRO Date: 10-5-23

1. Aims and objectives of the Visit?

- To understand the process
- To experience chemistry at work
- To become aware of the role of different people in an organization
- To become aware of career opportunities
- To recognize the need for health and safety in the workplace
- To focus on specific aspects of the studies

2. Brief about the Industry Profile? (Company Type, Product, Services, Plants & Locations, Management etc.)

• National Remote Sensing Centre (NRSC) is one of the primary centres of Indian Space Research Organisation (ISRO) and Department of Space (DOS). NRSC has mandate for establishment of ground stations for receiving satellite data, data generation, dissemination to the users and development of techniques for remote sensing applications including disaster management support geospatial services for good governance and capacity building for professionals, faculty and students. NRSC operates through multiple campuses but its main campus is located at Balanagar in Hyderabad.

3. Explore the Processes running in organization? (Manufacturing Processes, Layouts, etc)

• The NRSC runs various processes to collect, analyze and manage data from remote sensing satellites.
• These processes include :- ① Satellite operations ② Data processing, ③ GIS Analysis, ④ Disaster management and ⑤ capacity building.

4. Machines & Equipments, Tools Used?

• NRSC uses a variety of machine, equipment and tools to collect, process and analyze data from remote sensing satellites. Some of these includes :- (1) Satellite Ground stations, (2) Remote sensing satellites, (3) High performance computing systems, (4) Geographic information system (GIS) (5) Drones, (6) GPS Devices, (7) Spectrometer, (8) Radiometers, (9) Telemetry systems and many more.

5. What are the Finding during visit?

• As a Civil Engineering student, we got a deep knowledge of that how we can use these sensed data for infrastructure planning, design, monitoring of complex structures and maintainance. How remote sensing data can be used to access the condition of roads, bridges and other transportation infrastructure. Basically we found different applications of NBNSC.

6. Conclusion and recommendations for the Visit?

We have gained a deeper understanding of the importance and application of RS and GIS. We were impressed by the advance technologies and capabilities of the centre which plays a critical role in monitoring and managing India's natural resources and infrastructure.

Description of visit:

Introduction to NRSC ISRO:

National Remote Sensing Centre (NRSC) is one of the primary centres of Indian Space Research Organisation (ISRO), Department of Space (DOS). NRSC has the mandate for establishment of ground stations for receiving satellite data, generation of data products, dissemination to the users, development of techniques for remote sensing applications including disaster management support, geospatial services for good governance and capacity building for professionals, faculty and students.

NRSC operates through multiple campuses to meet national and regional remote sensing data and applications needs of the country.

- Main Campus at Balanagar, Hyderabad for Administration, Remote Sensing Applications and Aerial Services
- The Campus at Shadnagar for Satellite Data Reception, Data Processing and Dissemination, Earth and Climate Studies and Disaster Management Support
- Five Regional Centres at Sector 9, KBHB in Jodhpur (Regional Centre-West), Sadhiknagar at New Delhi (Regional Centre-North), New Salt Lake City in Kolkata (Regional Centre-East), Amaravathy Road in Nagpur (Regional Centre-Central), Karthik Nagar in Bangalore (Regional Centre-South) for promoting remote sensing applications for various states.
- Outreach facility at Jeedimetla in Hyderabad for providing training for professionals, faculty and students and for general outreach.
- Aircraft operations facility at Begumpet Airport, Hyderabad

Activities performed at NRSC, ISRO:

- The students with faculty reached the NRSC at 10:00am and were received by the faculty member of NRSC, Dr. Shankarprasad.
- Group photo was clicked at the entrance of NRSC, ISRO
- Students were taken to the classroom where presentation regarding NRSC, ISRO was given.
- Presentation was followed by information on fundamentals of remote sensing and its application in nations development.
- Further the students were taken to exhibition hall which showcased all the prototypes of remote sensing equipments.
- Interaction with senior scientist and Head of NRSC Dr. Ganesh V V was arranged.
- Visit to NRSC concluded.
