Definition of Ethics

- Ethics is a set of beliefs about right and wrong behavior.
- Ethical behavior conforms to generally accepted social norms
- Virtues
- Habits that incline people to do what is acceptable
- Vices
- Habits of unacceptable behavior
- Value system
- Scheme of moral values

A woman with dark hair, wearing a white top and a green shawl, stands behind a podium. She is gesturing with her hands while speaking into a microphone. Behind her is a large projection screen displaying a blue-themed presentation slide. The slide has the title "Definition of Ethics" at the top. Below the title is a bulleted list of seven points related to ethics. To the right of the list is a diagram with a central circle labeled "CORE VALUES". Various terms like "teamwork", "ethics", "integrity", "honesty", "GOD", and "loyalty" are connected to the central circle by lines, suggesting they are part of a value system. The room has white curtains on the left and a red wall below the stage area.
