

STUDENTS' ASSOCIATION OF AUTOMATION AND ROBOTICS

ROS (Robot Operating System) Workshop Report

The **Students' Association of Automation and Robotics (SAAR)** and the **Robotic Society of India (TRS)** in Association of **Department of Automation and Robotics** had organized a 2 days ROS Workshop for TE Students from 3rd April 2024 to 4th April 2024 at 9.10 am to 4:00 pm in **CAD Lab**.

The workshop was conducted by **AUTOMAX ROBOTICS PVT. LTD., Pune**. This workshop was sponsored by The Robotic Society of India (TRS). The Workshop was on the topic **"Robot Operating system"**. The session was very interactive where the sir explained about main aspects of Robot operating system. They Also told about how the actual program works after Implementation. As well as they presented Advantages of robot operating system over the traditional machines. From the Automax Robotics Pvt. Ltd., Pune the trainers was Raunak Chaudhary and Pratik Gawali.

About 70 students from TE, Automation and Robotics Department were present for this 2 days workshop. The lecture was very much interesting and informative to the students.
