1. Collaborative activities

Activity based learning is a successful educational model in various disciplines and recently it has been proved very effective in educational institutes also. Industrial internship is a viable activity for the learning and growth of institute students. Practical experience, teamwork, understanding strengths and weaknesses, financial support for further studies and exposure to real world problems were found main outcomes of internship in terms of professional development. Likewise, goal setting, internal motivation, confidence, punctuality, regularity and understanding responsibility in terms of personality development were found as key outcomes of internship for students. The table and bar chart below gives information on number of collaborative activities for research, Student exchange/ internship per year that institute has conducted. The number of collaborative activity conducted in last academic year (2019-20) is less because of Covid- 19 pandemic.

Number of Collaborative activities for research, Faculty exchange, Student exchange/ internship per year					
Year	15-16	16-17	17-18	18-19	19-20
Number of Collaborative activities for research, Faculty exchange, Student exchange/ internship per year	2	4	32	124	58

2. Link for the relevant documents

Use following link for the documents related to number of collaborative activities for research, faculty exchange, and student exchange / internship year wise during the last five. Link opens the folder that has .pdf files arranged in a sequence of DVV sheet.
