2.	Objectives: Covid-19 awareness among the students and encourage them to wear mask regularly. By making masks at home by students they encourage to wear the masks and also encourage the other people to wear the mask.
3.	Outcomes: Many students have made masks at their home and they also distribute the masks to needy people
4.	Class: SE, TE and BE Electronics
5.	Date and Time of conduction: 30/04/2020
6.	Venue: Online
7.	No. of Participants: 30

Brief Description of Activity and Discussions:

Covid-19 Awareness Program and homemade Mask distribution to needy people is organized by Earn & Learn scheme of AVCOE on 30/04/2020. Main objective of this program to give awareness among the students about Covid-19 and encourage them to wear mask regularly. Students have made masks by their own at home and also distribute the home made masks among the needy people

Feedback: More than 30 students of Electronics Engineering have participated in in the masks making and distribution among needy people.

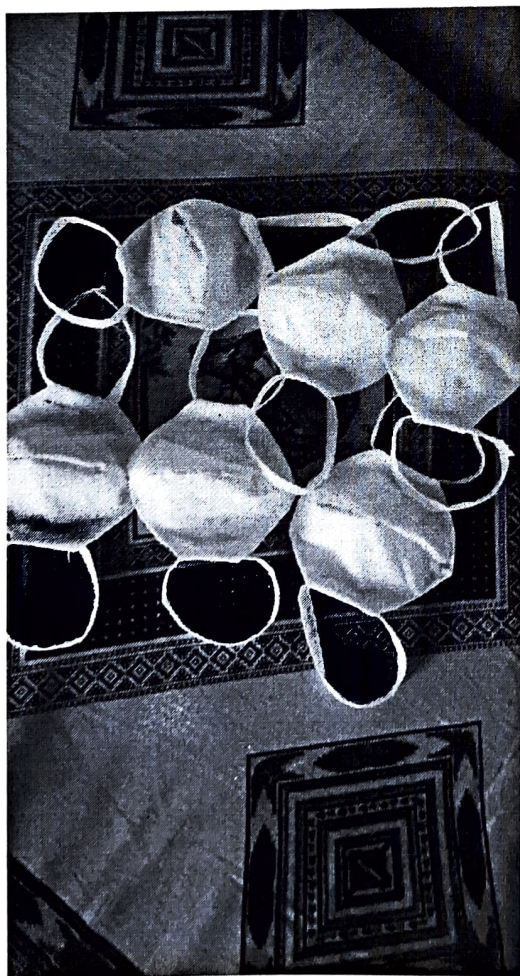

Winners: NA.
