Report of expert lecture on “Soft Skills: Education Beyond Academic Knowledge”

Date: 30.7.2016

Time: 9.00am to 11.00am

Venue: IT, Conference Hall

Soft skill plays vital role in shaping individual's personality. Technical skills will help students to get a job but soft skills will either make or break their job. So, taking need of time into consideration we organized an expert talk on “Soft Skills: Education Beyond Academic Knowledge” under ISTE.

Resource person for this session was Prof. R. L. Paikrao (HOD, Computer Engineering). Program started with introductory speech by Ms. K. U. Rahane followed by felicitation. Sir started with importance of soft skills in academia & beyond, what are soft skills?, Why students need to opt them? He gave many real life examples & tips which will prove helpful for students to become an able engineer & also a good human being.

Finally, sir also covered how to make good PPT presentation, which will prove helpful for students to prepare their seminars. With insist of organizers he clarified difference between GD & debate and their rules.

It was really very nice session which included equal participation from audience as well. At the end, we had interactive question-answer session. Program was concluded with vote of thanks by Ms. S. B. Bhonde.
