Importance of foreign Language

22/06/2018

It is known by everyone that nowadays English is the most common language in the world. For that reason it is extremely important for young people to improve their skills and to learn as much they can this important language.

A session was organized on the topic of “Importance of Foreign Languages in Corporate Sectors” by Mrs. Sujata Kolekar.

Foreign language study is all about learning how to truly communicate and connect with others—an incredibly important life skill that can only be cultivated by interacting with people. When you master a foreign language, you can exercise your new superhuman power of being able to understand what someone is saying, recall the proper vocab and grammar, put that vocab and grammar into the proper context, and reply back—all on the spot and in a timely manner.

Another important point to take in consideration is that knowing foreign languages helps you to make new friends and meet some interesting people. It is becoming really common to find fascinating social network where you can interact among other people coming from different countries.
