Preamble

The undergraduate curriculum structure has been designed in accordance with the National Education Policy (NEP) 2020 and the credit framework prescribed through the relevant Government Resolution (GR). The four-year undergraduate programme follows a semester-wise credit distribution that provides a balanced combination of Programme Core Courses, Programme Elective Courses, Multidisciplinary Courses, Ability Enhancement Courses, Vocational Skill Enhancement Courses, Open Electives, and experiential learning components. The structure ensures flexibility, multidisciplinary learning, skill development, and progressive attainment of programme-specific competencies while adhering to the prescribed credit requirements for each semester and the overall four-year undergraduate programme.

1. Credit Definition

The credit system adopted for the B.Tech. Computer Engineering programme is based on the guidelines prescribed under the **NEP 2020 framework for undergraduate engineering programmes**. The following definitions are used for determining the credits assigned to theory, tutorial and practical components of a course.

Table 1: Credit Definition and Contact Hours

Academic Component	Contact Hours per Week	Credits
Lecture (L)	1 Hour	1 Credit
Tutorial (T)	1 Hour	1 Credit
Practical (P)	2 Hours	1 Credit

2. Programme Credit Requirement

As per the Government of Maharashtra guidelines for implementation of NEP 2020 in undergraduate engineering programmes, the four-year B.E./B.Tech. programme with a Multidisciplinary Minor carries a prescribed credit range of **160 to 176 credits**. The Institute has adopted a total of **168 credits** for the four-year B.Tech. Computer Engineering programme, which falls within the prescribed range.

3. Semester-wise Credit Distribution

The following table presents the semester-wise credit distribution adopted for the four-year B.Tech. Computer Engineering programme. The credit load is planned within the **20–22 credit range prescribed per semester** under the NEP 2020 framework.

Table 2 -Semester-wise total credits

5. Alignment with NEP 2020 Credit Framework

The B.Tech. Computer Engineering programme of the Institute has been structured in alignment with the NEP 2020 Credit and Multidisciplinary Curricular Framework prescribed by the Government of Maharashtra. The Institute has adopted a total of 168 credits for the four-year programme, within the prescribed credit range of 160–176 credits for a four-year B.E./B.Tech. programme with a Multidisciplinary Minor. The curriculum incorporates Programme Core Courses, Programme Electives, Multidisciplinary Minor, Open Electives, Skill Enhancement Courses, Ability Enhancement Courses, Value Education, Internship, Project and other experiential learning components. The following table presents the credit distribution adopted by the Institute across various course categories.

Table 4 - Semester-wise Credit Distribution

The following figure presents the distribution of programme credits across various course categories in the B.Tech. Computer Engineering programme. It provides a visual representation of the relative contribution of each category to the overall curriculum structure.

Fig 1 – Credit distribution by course category

The Institute offers multiple academic pathways within the four-year B.Tech. programme, providing students with flexibility to pursue multidisciplinary learning, advanced specialization, and research-oriented studies. The credit requirements for the different pathways are as follows

Table 5: Academic Pathways and Credit Requirements for B.Tech. Computer Engineering

Programme Nomenclature	Credits	Main requirement
B.Tech. in Computer Engineering	168 credits	Completion of the approved regular curriculum, project and internship/OJT.
B.Tech. in Computer Engineering - Honors	168 regular credits + 18 Honors credits = Total 186 Credits	Six approved Honors courses across Semesters III-VIII.
B.Tech. in Computer Engineering - Double Minor	168 regular credits + 18 credits of specialization Minor = Total 186 Credits	Six approved Honors courses across Semesters III-VIII.
B.Tech. in Computer Engineering - Honors with Research	168 regular credits + 18 Honors with Research credits = Total 186 Credits	Approved fourth-year research-specific courses and a Research Project/Dissertation.

**6. Multiple Entry and Multiple Exit – Credit Requirements**

The NEP 2020 framework provides flexibility for students to exit the four-year undergraduate programme at specified stages after successful completion of the prescribed academic requirements. The following table presents the qualification/award, credit requirements, semester, and year of completion as adopted for the B.Tech. Computer Engineering programme of the Institute.

Table 5 - Credit Requirements for Multiple Entry and Exit

**Open Elective Courses:**

In accordance with the principles of NEP 2020, Open Elective (OE) courses provide students with an opportunity to acquire knowledge beyond their major discipline and promote multidisciplinary and interdisciplinary learning. Students can choose courses offered by other disciplines/programmes according to their interests, subject to the prescribed credit requirements and availability. The Open Elective Basket is designed to provide flexibility in academic choices and enable students to develop broader knowledge and skills relevant to their personal, professional, and career interests.

Table 6 – Open Elective Course Baskets

Sr. No.	Open Elective subject offered by Department	Semester III	Semester IV
1.	Artificial Intelligence and Data Science	Road Safety and Civic Responsibility	Digital Marketing and E-business
2.	Automation and Robotics	Supply Chain Management	Farm Automation
3.	Civil Engineering	Mechanical Electrical and Plumbing Systems	Interior Design
4.	Computer Engineering	Financial Literacy and Investment Planning	Digital Governance and Management Information Systems
5.	Electrical Engineering	Project Management	Sustainable Rural Entrepreneurship and Development
6.	Electronics and Computer Engineering	Leadership and Organizational Behaviour	Dairy and Food Process Technology
7.	Electronics and Telecommunication Engineering	Business Analytics	Remote Sensing and GIS
8.	Information Technology	Cyber Security and Laws	Data Ethics and Visualization
9.	Mechanical Engineering	Principles and Practices of Management	Agri-Tech Systems

Multidisciplinary Minor Courses:

A Multidisciplinary Minor (MDM) is a structured set of courses that allows students to gain additional knowledge and skills in a discipline other than their major/branch of study. It promotes interdisciplinary learning and enables students to apply concepts from multiple fields to solve real-world problems. Each department shall offer one multidisciplinary minor course in every semester from Semester III to Semester VIII. The courses offered under the Multidisciplinary Minor shall be proposed and approved by the Board of Studies (BoS) of the respective offering department.

**Honor Courses:**

Students who wish to pursue an Honors qualification shall complete additional courses carrying a minimum of 18 credits over and above the 168 credits prescribed for the regular B.Tech. programme.

Thus, for the award of B.Tech. with Honors, a student shall successfully earn a minimum total of 186 credits, comprising:

- 168 credits prescribed under the regular B.Tech. programme, and
- 18 additional credits through the Honor courses.

The Department of Computer Engineering offers an Honors Track in Advanced Artificial Intelligence (18 Credits) to provide students with advanced and specialized knowledge and skills in the field of Artificial Intelligence.

**Double Minor Course:**

- The Double Minor provides an opportunity for students to gain additional knowledge and skills in a discipline other than their parent programme.
- The department offers its approved Honors specialization/course basket as a Double Minor to eligible students from other departments.
- A student opting for a Double Minor shall complete six prescribed courses, each carrying 3 credits, for a total of 18 additional credits.
- The courses shall be completed from Semester III to Semester VIII.
- The courses shall be completed along with the regular B.Tech. programme and shall follow the prescribed sequence and prerequisites, wherever applicable.
- On successful completion of all the prescribed courses and earning the required 18 credits, the student shall be eligible for the award of a Double Minor in the respective specialization/track, as per the academic regulations of the institution.
