

Remedial Classes for Weaker Students

Amrutvahini College of Engineering Sangamner reached to zenith in the academic results in the university. We hold the courtesy and responsibility for weaker students also. Because we believe that, one bad result of a student will not decide the potential or talent. After declaration of exam results, considering students mindset, college arranges remedial classes for weaker students. We provide special coaching, extra study material and provide counseling. We arrange practice tests for them. Because of this, we achieved excellent results from the weaker students.

These classes are conducted by an expert teacher in particular subject, one month before the backlog examinations of the university. Nominal charges are taken from the students (Rs. 500/-) which are refunded to them after clearing the paper. These charges are not refunded to the students who fail.
